

**For Immediate Release**

## **EyeC to Host Open House 2025: Insights and Innovations in Print Inspection**

**Hamburg, Germany, February 26, 2025.** EyeC GmbH, a leading global provider of automated artwork and print image inspection systems, invites industry professionals to its exclusive EyeC Open House on May 13-14, 2025. The two-day event at EyeC's Hamburg headquarters will offer attendees insights into the latest advances in automated print inspection, with opportunities for networking and discussions with industry experts. Registration is now open at [www.EyeC.com/OpenHouse2025](http://www.EyeC.com/OpenHouse2025).

At the upcoming EyeC Open House in Hamburg on May 13-14, 2025, EyeC experts will demonstrate their market-leading print image inspection systems through presentations and live demos. Attendees will gain insights into solutions for pharmaceutical package inserts, flexible packaging, multi-page samples, and prepress file inspection. Demonstrations of the scanner-based EyeC Profiler solution will provide insights into existing applications, system functions, and current innovations. A central focus will be on the latest development in inline inspection: the AI-based defect classification of the EyeC ProofRunner line. This intelligent feature enables more precise defect detection and assessment, minimizing false alarms and making production processes significantly more efficient.

The event will also feature EyeC Validation Support, a tailor-made service designed to meet the regulatory needs of industries like pharmaceuticals and medical devices. This comprehensive support guarantees that companies comply with legal requirements and ensures smooth production processes.

Each day will conclude with an exclusive harbor cruise in the Port of Hamburg, providing a relaxed setting for informal discussions and networking against the backdrop of the city's iconic waterways.

“The EyeC Open House 2025 will demonstrate how our systems can optimize processes and address market challenges,” says Markus Fietkau, Director of Sales at EyeC GmbH. “We are looking forward to strengthening existing partnerships and making new contacts.”

In addition to technical insights, the focus is on personal exchange in order to experience proven best practices first-hand and gain fresh impetus and new perspectives.

The number of participants is limited. Full program details and registration are available at [www.EyeC.com/OpenHouse2025](http://www.EyeC.com/OpenHouse2025).

#### About EyeC GmbH

Founded in 2002, EyeC GmbH provides fast, accurate, and easy-to-use artwork and print inspection systems. EyeC is the only provider on the market that ensures product quality throughout the entire manufacturing process – from the first artwork file to the finished printed product. Products from EyeC provide users with 100% confidence about the print quality of their products, such as labels, folding boxes, package inserts, or flexible packaging. As a result, complaints, and recalls are minimized, production costs lowered, and quality testing optimized. Around the world, more than 3,000 EyeC inspection systems are currently used by pharmaceutical companies, printers, and manufacturers of branded goods. The company currently employs over 70 people in Hamburg and has international sales partners in more than 100 countries. Further information at [www.EyeC.com](http://www.EyeC.com).
